SUMMARY

Software Engineering student and Full-Stack Developer experienced in building web, mobile, and IoT applications. Experienced with Next.js, React, Flutter, Laravel, NestJS, PostgreSQL, and cloud/containerized environments. Interested in developing scalable and reliable software systems across frontend, backend, and infrastructure.

EDUCATION

Bachelor of Software Engineering Sep 2023 - Present
Telkom University | Bandung, Indonesia

GPA: 3.59/4.00

Relevant Coursework: Data Structures, Database Systems, Software Engineering, Web Development., Mobile development.

EXPERIENCE

Full-Stack Developer Intern Agustus 2026 – Present
COE Integrated & Embeded System Telkom University Surabaya Surabaya, Indonesia

- Developed a full-stack IoT monitoring system for poultry farms integrating web dashboard, mobile application, and ESP32 sensor gateways.
- Built backend APIs and telemetry processing using NestJS, Prisma, and PostgreSQL with role-based access control.
- Developed monitoring interfaces for real-time environmental data, historical visualization, and operational monitoring.
- Containerized and deployed system components using Docker and Linux-based infrastructure.
- **Tech:** Next.js, TypeScript, Flutter, NestJS, PostgreSQL, Prisma, ESP32, Docker, Linux.

Full-Stack Developer Intern Juli 2026 – Agustus 2026
CV. Media Inti Teknologi Bandung, Indonesia (Remote)

- Developed Quenza Conference System with role-based user management and a dynamic CMS for conference administration.
- Implemented RBAC, security controls, audit logging, and automated testing for 4 user roles.
- Built 15+ reusable React components and interactive participant distribution maps using Leaflet.js.
- Tech: Laravel, PHP, React, Inertia.js, Tailwind CSS, SQLite, Leaflet.js, PHPUnit, Git

PROJECTS

IDAMAN-TSL JAWA BARAT | Next.js, TypeScript, Tailwind CSS 2026

- Developed the frontend for Dashboard, Penangkar, Pengedar Dalam Negeri, Pengedar Luar Negeri, Lembaga Konservasi, Referensi TSL, Verifikasi, and Manajemen Pengguna modules.

- Implemented data management, search/filtering, CRUD, Excel import/export, and dashboard visualization features.

FutsalPro | Next.js, TypeScript, Tailwind CSS, Supabase, PostgreSQL, Midtrans 2026

- Developed a full-stack futsal booking platform with court scheduling, reservation management, and online payment.
- Implemented transaction handling to prevent double-booking during concurrent reservations.

RideAssist | Flutter, Riverpod, SQLite, Firebase 2026

- Developed an offline-first mobile application for motorcycle maintenance, service history, and GPS trip tracking.
- Implemented GPS filtering and local data management for reliable tracking.

GuardMain | Go, Wails, Flutter, Web Socket, Tailscale, Windows API 2026

- Developed a **desktop-mobile security system** with real-time WebSocket communication for remote laptop monitoring and control.
- Implemented **anti-theft automation** including charger detection, remote lock/alarm, screenshot/webcam capture, location tracking, telemetry, and QR-based device pairing.

ORGANIZATIONS

Treasurer Nov 2024 – Nov 2025
Google Developer Groups on Campus Telkom University Bandung, Indonesia

- Managed budgeting and supported execution of tech events.
- Collaborated with cross-functional teams to support on-site and online event operations and ensure smooth event execution.

Staff of PSDM – Sport Division Nov 2024 – Nov 2025
LDK Al-Fath Bandung, Indonesia

- Contributed to the Human Resource Development (PSDM) department, focusing on sports-related programs.
- Organized and managed activities to strengthen member engagement, teamwork, and coordination.

Staff of Syiar Feb 2024 – Dec 2024
LDF Al-Fath Bandung, Indonesia

- Supported outreach and community engagement programs within the Syiar division.
- Assisted in organizing events and communication activities to increase participation and awareness.

TECHNICAL SKILLS

Languages & Frameworks: TypeScript, JavaScript, PHP, Dart, Go, SQL, HTML, CSS, React, Next.js, Vue.js, Tailwind CSS, Bootstrap, Laravel, NestJS, Node.js, Express.js, REST API

Mobile: Flutter, GetX, Riverpod

Database: PostgreSQL, MySQL, SQLite, Supabase, Firebase

Infrastructure & Tools: Docker, Linux, Git, GitHub, Vercel, Postman, Figma, WebSocket

Language: Bahasa Indonesia, English (Intermediate – EPRT Score 487)
